Note: State policy on minimum cell size for reporting data stipulates that if the number of students is less than 11 or if the derived percentage is less than 1% or greater than 99%, then data must be suppressed to ensure confidentiality of individual student results. Cells in this table with a dash (-) indicate that the number of students included in calculations was less than 11 or the percentage was less than 1% or greater than 99%.

Note: State policy on minimum cell size for reporting data stipulates that if the number of students is less than 11 or if the derived percentage is less than 1% or greater than 99%, then data must be suppressed to ensure confidentiality of individual student results. Cells in this table with a dash (-) indicate that the number of students included in calculations was less than 11 or the percentage was less than 1% or greater than 99%.

Note: State policy on minimum cell size for reporting data stipulates that if the number of students is less than 11 or if the derived percentage is less than 1% or greater than 99%, then data must be suppressed to ensure confidentiality of individual student results. Cells in this table with a dash (-) indicate that the number of students included in calculations was less than 11 or the percentage was less than 1% or greater than 99%.

Note: Renaissance STAR assessment End of Year (EOY) administration was used in lieu of SBA for middle school grades 6 – 8 in 2020-2021. Grade 9 -10 students, who have never been required to take the SBA, were required to take the STAR assessments. Grade 11 students took the SBA in 2020-2021, and the Renaissance STAR assessments were optional for grade 12. This EOY administration is not an equitable comparison to BOY and MOY data because the assessment requirements changed.
